

Fabric and other Items Needed for your Feathered Wreath Quilt Template Version

This project will focus on the quilting. It is recommended that you choose solid color fabric or fabric with small texture that “reads” like a solid fabric. AVOID highly printed fabric.

We WANT the quilting to show!

Approximate finished size 68 x 68 inches	
Fabric #1—Background Light fabric is suggested	2 yards
Fabric #2 - Block Fabric Darker fabric is suggested	1 yard
Fabric #3 - Border Medium dark fabric is suggested	1 3/4 yard
Batting	2 1/4 yards x 90 inches
Backing Fabric	4 1/2 yards x 40 inches
Binding	3/4 yard
Longarm University Feather Guides - both the 12 inch and the 6 inch diameter template sets These template sets are available for purchase on the Longarm University website www.LongarmUniversity.com	

Piecing: You will need basic sewing supplies and basic sewing/quilting skills to piece the quilt top.

Quilting Thread: I highly recommend using contrasting threads for this project. The contrast doesn't need to be extreme—unless you want it to be. We want to be able to see our quilting and we also want our quilting to be seen by others when we are finished. Use what every type of thread you and your machine are comfortable working with. Use as many colors of threads you want on this quilt.

Quilting: The quilting is going to be a combination of template work and free hand quilting and we will be drawing registration lines on our quilt top. You will need a marker that you are comfortable using on a quilt top. I recommend the Mark B Gone, water soluble (blue) marker on light fabrics and a Chalk O Liner with Miracle Chalk power in it for dark fabric. I also like using Crayola Fine Line

Fabric and other Items Needed for your Feathered Wreath Quilt Template Version

Washable Markers. Please note that the Crayola markers wash out with detergent and warm water. The Crayola Fine Line Washable markers can be found at nearly every office supply store and many other stores including most grocery stores. A package of 8 markers is usually less than \$5.

*I use the Crayola markers only on my own quilts,
NEVER, EVER on a customer quilt!*

Quilting Designs: Before quilting on the quilt, I recommend practicing your quilting. I **highly recommend** purchasing a piece of clear, 1/8 inch Plexiglas (plastic), You can find this Plexiglas at your local hardware store and it usually comes in a piece that is 18 x 24 inches. I recently bought a piece of 18 x 24 inch Plexiglas and it was less than \$10 (\$6.50 to be exact!) Before using the Plexiglas, take either masking or duct tape (which now comes in many different colors) and place it over the cut edges of your piece of the Plexiglas. The tape serves two purposes. 1) it protects the edges of the Plexiglas. Sometimes the edges can be a little sharp and could scratch you or the tear the quilt. 2) The tape will also make a boundary or edge around the Plexiglas. This will prevent you from drawing off the edge of the Plexiglas.

We are going to place this piece of Plexiglas directly on top of the quilt top and draw your quilting designs directly on to the Plexiglas. I like to use a **Vis-à-Vis transparency marker** to draw on the Plexiglas. You will be able to see the quilt through the Plexiglas and see exactly how your quilting will look when finished. NOTE: The Vis-à-Vis transparency marker wipes off of the Plexiglas but it is **PERMANENT WHEN DRAWN ONTO FABRIC!** Ask me how I know this! Erase the marker using a damp paper towels.

There is a brief video tutorial on how to use the Plexiglas to draw your quilting designs on the Longarm University Tutorial Page.

Other items you may want to have on hand to make the quilting easier—**Temporary Quilt Basting Spray, any brand, 6 x 24 inch quilting ruler to make straight registration lines, or any other straight edge ruler that fits the workspace of your machine.** You will also need safety pins or high sheen polyester, or any other “slippery” thread for machine basting. This will be explained in the video quilting instructions.

We will be using templates for this project. When using templates of any kind, YOU MUST USE A BASE UNIT ON YOUR MACHINE! Make sure you base unit will securely attached to your machine. I will be talking about the base unit in the video quilting instructions.

REMEMBER this is a FUN project! This project does not need to be perfect. World peace does not depend on perfect piecing or quilting!! This is a project “just for you” and to learn how to use your machine and quilt some new patterns and how to use them in different ways.
